Project Summary

- **Godrej NFA Process (Note for Approval)**

  Description: RFQ (Request for quotation) is an automated negotiation tool for Godrej. Many companies procure any of the items/services and to place an order and they goes with L1/L2 depending on credibility/quality of the product. Godrej has zonal wise segregation, South/Mumbai etc. There will be set of projects and packages under that and they will finalize the vendors.

  Finalized bid have IOM format for the approval and when the bid had happened, all details will capture in the IOM. It will show the recommended vendors and all details of vendors participated in RFQ. Approval matrix is based on project, amount and it will go to different level like OH level/COO level etc. Below level approved

only it will go to next level (hierarchical level). Only after final approval (LOA-letter of award is generated) and send to vendor.

Responsibilities:
- Understanding the requirements by going through available documentation.
- Setup their existing application.
- Creating Database and application coding Using PHP/MySQL/CodeIgniter.
- Interacting with customers for requirements/clarifications/demo.
